- ♥ Can be used without removing birds or rabbits
- ♥ Virucidal, Bactericidal, Ovicidal, Fungicidal
- ♥ Easy to use - just dilute and spray

**MULTI PURPOSE CONCENTRATED CLEANER
SANITIZER AND ODOUR ELIMINATOR**

RIDMITE is a synergistic blend of cationic, amphoteric, non-ionic surfactants, chelates and silicones.

- ♥ **Non insecticidal**
- ♥ **Disrupts bio films**
- ♥ **Effective for controlling Red Mite in Poultry Houses, Pigeon Lofts, Hen Coops and Rabbit Hutches**
- ♥ **Controls within 48 hours**
- ♥ **Up to six weeks' protection**
- ♥ **Sanitises against bacteria, viruses, fungi and yeasts**
- ♥ **Can be used without removing birds or rabbits**

Ridmite is a safe and odourless liquid concentrate which must be diluted with water as directed and filled into a spray bottle before spraying onto red mite and their eggs. Ridmite entraps the mites, penetrates the cuticle and dissolves the shell of their eggs thus desiccating them.

DILUTION RATES (parts Ridmite to clean water)

Initial treatment and for heavy infestations of red mite:

1 part Ridmite : 10 parts water

Maintenance treatment:

1 part Ridmite : 20 parts water

INSTRUCTIONS FOR USE

Spray all surfaces of the livestock house with low pressure spray, paying particular attention to cracks and crevices. Spray until the point of run off (saturate all surfaces). Repeat at weekly intervals until control is achieved.

Livestock do not have to be removed during the treatment process.
